

My favourite pet

Most children have one pet or even more. There are different kinds of pets in the world. But I believe dogs are the most popular ones.

No one doubts that dogs are faithful animals. They are loyal to their masters. They will always accompany their masters. No matter what they are doing, for example watching TV, reading a newspaper or talking on the phone with friends, your dogs will be by your side.

For me, dogs are my good friends. Therefore, I have five dogs. They are all Pekingese. They are small dogs and are just like babies. I can hold them in my arms. I give names to all my dogs. The names all sound familiar to me because they are names of my friends.

My dogs are so lovely. When they see me, either in the morning after I wake up, or in the evening after I am back home, they all wave their tails excitedly. They jump onto my knees and lick my face until it is all wet. They are always full of energy and run around in my house. I really love them. My love for them will not change.
